Packers' Costs
and Profits

How much do you think
it costs—

1. To dress beef, cure hides, and prepare all the numerous by-products?
2. To cool the meat for two or three days before shipment?
3. To freight it to all parts of the country in special refrigerator cars, iced daily?
4. To carry it in hundreds of branch houses, each with its refrigerating plant?
5. And to deliver it to the retailer—sweet and fresh—in less than two weeks after dressing?

Swift & Company did all this
for you in 1917 at an expense of
less than 2½ cents per pound of
beef sold, including an average
profit of ¼ of a cent a pound.

Figure for yourself how little
effect this cost and profit had
on prices you paid for beefsteak.

Swift & Company, U.S.A.
